

Carbonmoss

Carbon accounting for mid-size manufacturers.

\$1.1M revenue · Seed · August 2026

Problem

Manufacturers with 200–2,000 employees must report product-level emissions to their large customers; they do it by consultant and spreadsheet.

Product

Connects to the ERP and utility bills, computes product carbon footprints and produces customer-ready reports.

Traction

Metric	Value
Revenue since launch (2024 → Jul 2026)	\$1.1M
