

Crateroute

The wholesale produce marketplace for independent restaurants.

\$8.2M revenue in 2025 · Series A · June 2026

Problem

Independent restaurants buy produce from 4–6 distributors by phone and text. Prices change daily; minimum orders are high; 9% of produce is wasted.

How it works

Restaurants order from 60+ regional farms and packers in one cart before 10pm; Crateroute consolidates and delivers next morning. Suppliers are paid in 7 days.

Crateroute keeps an 11% take rate on each order.

Traction

Metric	Value
Revenue 2025 (gross order value through the platform)	\$8.2M
Take rate	11%
Active restaurant buyers (May 2026)	340
Repeat buyer rate (90 days, 340 buyers)	62%
Revenue growth 2025 vs 2024	3.1x

Market

US restaurant produce spend: \$38B per year. Independent restaurants: 55% of it.

Team

Ines Carvalho, CEO — 7 years running purchasing for a 40-restaurant group.

Owen Achterberg, COO — built cold-chain routing at a regional grocery distributor.

27 employees.

The round

Raising \$9M Series A, priced equity, \$36M pre-money.

Cash \$2.4M (May 2026); net burn \$310k / month.
