

Drypoint Sensors

Leak detection for commercial buildings: wireless sensors + monitoring subscription.

Series A — May 2026

Problem

Water damage is the #1 source of commercial property claims. Leaks are found days later, after ceilings collapse.

Product

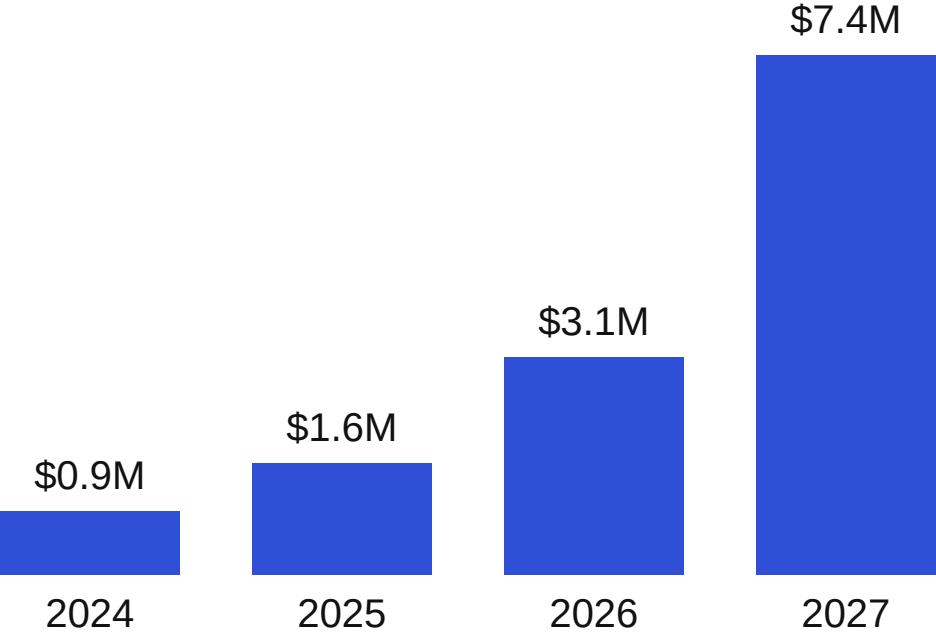

Battery-powered sensors (\$140 each) installed under risers and HVAC units, and a monitoring subscription (\$4 per sensor per month) that shuts valves automatically.

Traction

Metric	Value
ARR	\$2.4M
Sensors deployed	1,900 of 24,000 contracted
Utility and insurer contracts signed	3

ARR includes \$2.09M of signed utility contracts not yet deployed (deployment planned for 2027); live subscription ARR is \$0.31M.

Revenue

Total revenue (hardware + subscription). 2026 and 2027 bars reflect the operating plan.

Team

Hannah Oyelaran, CEO — 9 years in building-systems sales for a controls manufacturer.

Luca Ferrand, CTO — low-power radio engineer; shipped 2M IoT devices.

22 employees.

The round

Raising \$8M Series A, priced equity, at a \$32M pre-money valuation.

Cash \$1.1M (Apr 2026); net burn \$260k / month.
