

# Lendquarry

Working capital for independent pharmacies.

\$48M in loan volume · Series A · July 2026

# Problem

Independent pharmacies wait 30–60 days for insurer reimbursements while paying wholesalers in 15. Banks do not underwrite receivables from pharmacy benefit managers.

# Product

Advances against pending reimbursements, underwritten on claims data pulled from the pharmacy system. Decision in 24 hours; fee of 1.5–2.5% per 30 days.

# Traction

| Metric                                            | Value  |
|---------------------------------------------------|--------|
| Loan volume (originated since launch, March 2023) | \$48M  |
| Revenue (trailing 12 months, Jun 2026)            | \$2.1M |
| Active borrowers                                  | 610    |
| Default rate                                      | 1.2%   |

# Capital

Loans funded from a \$15M warehouse facility; a \$40M facility is in negotiation.

# Team

**Adaeze Moreau, CEO** — 10 years in pharmacy operations and wholesaler credit.

**Kenji Hollander, CTO** — built underwriting models at a small-business lender.

Team of 16.

# The round

Raising \$6M Series A equity at a \$24M pre-money valuation.

Cash: \$1.8M (Jun 2026). Net burn: \$220k / month.
